

The Family Strengthening Center at Family Programs Hawaii is pleased to offer a Post-Doctoral Clinical Psychology Fellowship training for the 2021 to 2022 academic year. We currently have 1 to 2 positions available starting at or around September 1, 2021. The Family Strengthening Center (FSC) is a non-profit community mental health Center whose mission is to protect children and facilitate healthy development by strengthening their families. Through its parent organization, FSC is accredited by the Council on Accreditation, a nonprofit accreditor of human services since 1977. The Center provides services statewide with psychological evaluations offered on all of the Hawaiian Islands. The FSC is also a training center and provides Clinical Psychology Practicum, Mental Health Practicum, Doctoral Psychology Internship and Post-Doctoral Psychology Fellowship training. Furthermore, FSC is the training center for Parent-Child Intervention Therapy for the State of Hawaii. This Post-Doctoral Fellowship provides 2,000 hours of supervised Post-Doctoral training with at least 500 hours of direct services. This more than qualifies for the required Post-Doctoral training for licensure in most States including Hawaii. The Training Salary is \$36,000 a year with Medical/Dental/Vision Insurance coverage and two weeks of Paid Time Off with 13 paid holidays. The Center hours are Monday through Friday from 8:00am to 5:00pm with possible early evening and some weekend therapy services. There are 5 Staff on-site Licensed Clinical Psychologists for supervision. Upon completion of training, the Fellows can earn a Certificate of Completion for Parent-Child Interaction Therapy, and a Specialty Certification in Child Maltreatment. The FSC is part of the Universal APPIC Psychology Post-Doctoral Directory and adheres to all of the requirements and selection guidelines for this directory. Our Post-Doctoral Fellowship is currently applying for membership in APPIC. Further details on our training program can be reviewed at the APPIC website. We also adhere to the universal selection decision day requirement, which will be in late February 2021. Applications are being accepted now until closing date of December 31, 2020. For more information, visit our Center's website and or contact the Center's Director, Dr. Steven J. Choy. The Internship training includes opportunities in the following areas:

- Forensic Comprehensive Psychological Evaluations for Adults (Parents/Caretakers) and Children (Victims of Child Maltreatment)
- Opportunity to develop psychological evaluations skills to assess the needs of Hawaii's diverse population including completing evaluations on Kauai, Maui, Molokai, Lanai and Hawaii Island in addition to Oahu (Interns are on staff at our Oahu Center and have some opportunity to take periodic day trips to the other islands)
- Evidence-based child and family treatment to include Parent-Child Interaction Therapy and Child Parent Psychotherapy
- Evidence-based individual trauma focused psychological treatment and trauma informed care
- Children's Group Therapy and Child Crisis Therapy and Mental Health Crisis Management
- Comprehensive training in the diagnosis and treatment of Child Maltreatment
- Training in clinical consultation and clinical supervision and opportunity to participate in the clinical supervision of Doctoral Psychology Practicum Students, and Doctoral Psychology Interns
- Opportunity to participate in the Annual Hawaii International Trauma Conference
- Opportunity to participate in Hawaii's Specialty Courts: Zero-To-Three; Family Drug Court, Juvenile Drug Court and Girls Court and provide psychological consultation to a multidisciplinary court team
- Opportunity to participate in the psychosocial support services programs at the Family Programs Hawaii that focuses on strengthening children in foster care, resource caregivers, and youths that have aged-out of foster care.
- Opportunity to develop program management and grant writing skills through the specialty programs at Family Programs Hawaii
